Key to Journal Holdings List

= Currently subscribed or donated library journals

This denotes all journals that are still currently received in print format in the library, either as a subscription or a donation.

= Print holdings

Please note that only the current year of subscribed or donated print journals is held in the library. Any issues older than this are held in our off-site store. Articles from these journals can be obtained on request normally within 24 hours.

= ONLINE availability

This includes all of our journals which are available with an NHS ATHENS username and password plus other journals which are currently freely available online, either on a publisher's website or in permanent collections such as PUBMED CENTRAL.

NB. In many cases PUBMED CENTRAL overlaps NHS journals but may include a larger archive: e.g. BMJ back to 1857.

PLEASE NOTE

The online access journals listed here are journals which coincide with our own library journals collection. There are many more full-text journals available with an NHS Athens password at www.eel.nhs.uk. Click on "Find a Journal" or alternatively go to <https://journals.nice.org.uk/> and login for a list of all online NHS (or other) free journals.
